Profile

A motivated and detail-oriented Full Stack Developer with intermediate-level experience in web development, specializing in Vue.js, PHP, MySQL, and front-end technologies. Gained hands-on experience through internships at AIOU, working on Learning Management Systems (LMS) and enhancing user interfaces. Skilled in front-end and back-end development, database management, API integration, and performance optimization. Continuously learning and refining my skills to build efficient, responsive, and user-friendly applications while staying updated with modern web technologies.

Professional Experience

Internee, Aksa-SDS / Axa business technologies

12/2024 – Present

Islamabad, Pakistan

- Assisted in the development and maintenance of web applications using Vue.js, PHP, Laravel and MySQL.
- Worked on front-end development, implementing responsive UI components and improving user experience.
- Integrated RESTful APIs and assisted in debugging and optimizing application performance.
- Collaborated with the development team to troubleshoot issues and refine full-stack functionalities.
- Gained hands-on experience in modern web development practices and problem-solving in a professional environment.

Internee, Allama Iqbal Open University

08/2023 – 12/2024

Islamabad, Pakistan

- Worked on a MERN stack project, utilizing MongoDB, Express.js, React, and Node.js for full-stack web development.
- Contributed to both front-end and back-end development, ensuring smooth functionality and user experience.
- Assisted in database design and management using MongoDB, optimizing queries for better performance.
- Developed and integrated RESTful APIs to enhance system features and connectivity.
- Participated in project planning, collaborating with the team to define requirements and implement new features.
- Conducted testing and debugging to improve system stability and maintain high-quality code standards.

Internee, Allama Iqbal Open University

08/2022 – 10/2022

Islamabad, Pakistan

- Assisted in managing and updating LMS course content while supporting system upgrades and optimizations. Collaborated with the ICT team to develop new features and troubleshoot technical issues.
- Gained hands-on experience in LMS management, system performance optimization, and user support.
